

## ID Card Maker Image Capture

**NEW**

A powerful add-on to ID Card Maker Enhanced, Expert or Elite Editions, ID Card Maker Image Capture is an easy-to-use tool for capturing photos and other images utilizing a variety of Canon cameras. Features include live video preview of images, fast, one-click image capture, manual and auto-crop capabilities, enhanced auto-crop configuration, and remote capture — integrated and designed to make it easy to capture and work with images in your ID Card Maker software.
